EXPERIENCE

Junior Full Stack Developer — Feb 2025 - April 2025
Busitron It Solutions private Limited — Hyderabad
Nicheflare – Niche Content Subscription Network

- Developed secure login and registration systems using JWT, bcrypt, and form validation, reducing authentication issues by 90% and improving user data protection. Built a user-friendly UI to improve usability and accessibility.
- Built interactive, data-driven dashboards for Subscribers and Users using React.js with real-time profile and subscription management, featuring bar and pie charts to display Approved, Rejected, and Pending statuses.
- Designed and integrated RESTful APIs with Node.js and MongoDB to manage user data and serve dashboard content, reducing response time by 40%. Implemented routing for seamless authentication and access.
- Used GitHub extensively for version control with structured branch-based workflows, managing multiple daily pull requests and code pushes to ensure smooth, collaborative, efficient, and scalable code integration.

PROJECTS

Content Hub [Preview Project] — Nov 2024 - Dec 2024

- Built a responsive video streaming platform using React.js with API integration, supporting live search, category-based filtering, dynamic playback, and user engagement features like recommendations, likes, and comments.
- Implemented the Detoxify feature to minimize distractions by promoting personalized, relevant video suggestions with instant playback and smart routing, allowing recommended videos to play as main content
- Designed and implemented responsive UI components using Bootstrap Cards, enhanced with custom hover effects and smooth CSS transitions to improve user experience and increase user interaction time by 30%.

CERTIFICATES

- Web Development Training Program Certificate - 10K Coders
- Volunteered in college fiesta and received Certificate of Appreciation – 2021.
